

WHICH ROS SEAT WOULD YOU RECOMMEND FOR PLEASURE CRAFT?

A question that we often hear answered by Peter Jones from our own experiences talking to customers at exhibitions and visitors to our showroom.

ROS

Question

As pleasure craft come in all shapes and sizes, planing and displacement that's a tough question to answer. If there is space enough for the helm to have their own seat, then the **Alioth** or **Megrez** are a good start. However, space always seems to be at a premium so one of ROS Nautica's double seats may be worth considering - the **Mizar** or **Dubhe**.

Alioth

Mizar

We always point out that the **Dubhe Modular System** is a great space-saver. Not only can single or double seats be offered, the **Dubhe Reversible** effortlessly transforms a helm seat into a rear-facing seat for use at a table for example. And of course, all seats are made specifically for the customer so matching existing decor never should be a problem **PJ**

Dubhe

.....AND A NOTE FROM THE OFFICE

There's a huge range of seats and options available - almost too many to list.

Please feel free to email us or speak to us during office hours - it's always our pleasure to help you!

ABOUT CROWN MARINE SEATS / AUXANO GROUP

We are marine seating specialists and delighted to represent ROS Industrie of Italy in the UK, Ireland and the Scandinavian countries plus Finland and the Baltic States.

We share our headquarters in Manchester with our Engineering Division, Auxano Technologies, producers of marine products including the SolaCURE range of marine navigation blinds and other maritime products.
