

WHICH ROS SEAT WOULD YOU RECOMMEND FOR SPEEDBOATS?

A question that we often hear answered by Peter Jones from our own experiences talking to customers at exhibitions and visitors to our showroom.

ROS

Question

The first thing to recommend without referring to a particular seat is to think about support. A bucket-type seat offering good lateral support is a must in my opinion. The seat should be hard-wearing and easy to clean and if involved in watersports, for example, waterskiing, a low back to keep an eye on events behind the boat. My obvious choice would be from the **Alcor** range.

Alcor

Of course, ROS Nautica offer a large range of bucket seats for interior and exterior use so there is plenty of choice. It comes down to style - maybe to match an existing seat. So for my "best of the rest", I would point customers to the **Megrez** or **Phecda** models with a good quality, easily washable synthetic nautical leather in a colour of your choice. *PJ*

Megrez

Phecda

.....AND A NOTE FROM THE OFFICE

Crown Marine Seats are high speed craft specialists and can provide a range of shock mitigating under-seat solutions.

Please feel free to email us or speak to us during office hours - it's always our pleasure to help you!

The **auxano** group
